- Strategic Planning
- Problem Solving
- Frontend Devolopement
- Creative Thinking
- AI/ML & Computer Vision
- Negotiation
- Adaptability to Change

LANGUAGES

- English (Fluent)
- Hindi (Fluent)
- Bengali

PROFILE

I'm a first-year BCA student with a knack for frontend design who's now diving into backend development, AI and ML. Passionate about continuous learning, I aim to build intuitive, impactful tech solutions and collaborate with like-minded innovators.

WORK EXPERIENCE

Technical & Core Team Member | Frontend Developer   2025 - PRESENT

GeeksForGeeksSNU Chapter

- Crafted and optimized the DSAthon event website's frontend, ensuring responsive, high-performance layouts and building immersive 3D web experiences with Three.js, React, Tailwind CSS, and GSAP.
- Collaborated & integrated UI/UX seamlessly: Worked closely with design and content teams to apply UI/UX best practices and led a 3D-based project that showcased event details in a visually engaging, interactive format.

Evangelist   2025 - PRESENT

Hack4Bengal

- Spearheaded strategic promotion of Hack4Bengal across leading tech communities and high-profile events, leveraging targeted social media campaigns, compelling content creation, and real-time engagement to drive a substantial increase in visibility and participant sign-ups.
- Engaged participants, speakers, and sponsors via collaborative networking initiatives, driving deeper hackathon involvement.
